

Splint Guide for Doctors, NP's, PA's

Do you have patients with:

- ⇒ PIP joint dislocations?
- ⇒ Trigger finger?
- ⇒ Mallet finger?
- ⇒ De Quervain's Tenosynovitis?
- ⇒ Stable, non-displaced fractures?

Refer them to Calhoon Orthopaedic Rehabilitation & Exercise for custom fabricated orthoses. We make our splints out of light weight thermoplastic material or delta cast conformable, for a comfortable fit. Please refer to our guide below, for reference to the many splints we make, plus many more.

Call us at 907-931-6927 or fax an order to 907-312-7142.

Orthosis Name

Forearm Based Thumb Spica Orthosis

Indications For Use

- ⇒ Scaphoid Fractures
- ⇒ First metacarpal joint fractures
- ⇒ De Quervain's tenosynovitis
- ⇒ Metacarpal Phalangeal Joint Fusion

Wrist Orthosis

- ⇒ Non-displaced distal radius fractures
- ⇒ Wrist extensor tenosynovitis
- ⇒ Carpal instability
- ⇒ Carpal fractures
- ⇒ TFCC sprains/injuries
- ⇒ First CMC OA

Orthosis Name

Indications For Use

Hand-Based CMC Orthosis

- ⇒ First metacarpal fractures
- ⇒ First metacarpal osteo-arthritis
- ⇒ Gamekeepers thumb UCL/RCL injuries
- ⇒ Metacarpal joint fusion
- ⇒ First metacarpal joint volar plate injuries

Hand-Based Ulnar Gutter Orthosis

- ⇒ Metacarpal fractures
- ⇒ Nerve injuries
- ⇒ Proximal phalanx fractures

Orthosis Name

Indications For Use

Forearm-Based Ulnar Gutter Orthosis

⇒ 3rd, 4th, 5th Metacarpal fractures

Extensor Tendon Orthosis

⇒ Extensor Tendon repairs

Orthosis Name

Indications For Use

Dorsal Blocking Orthosis/Controlled Active Motion

⇒ Flexor Tendon repairs

Dorsal Finger Extension Blocking Orthosis

⇒ Volar plate injuries

⇒ Finger avulsion injuries

Orthosis Name

Indications For Use

Finger Extension Orthosis

- ⇒ PIP joint injuries
- ⇒ Central slip injuries
- ⇒ Fractures or dislocations
- ⇒ Trigger finger
